

Coach Allocco,

I wanted to let you know that I received and accepted a job opportunity as a Sales Consultant with the Houston Astros. I appreciate everything you've done for me over the years as a mentor and role model. I can remember when we met. My father introduced us at Pittsburg High School during your State championship year in 2006. At the time I was skeptical about going to De la Salle and playing basketball there until I saw how your team played with great discipline and sound

execution. Even though I never got to play varsity for you I am grateful that you accepted me into the Excel family. Every summer I come home to work the camps I look forward to learning new life lessons that you teach the young campers. Thank you coach, you've always been an inspiration to me and I will keep you updated with how everything is going in Houston.

Take Care,

Jordan Henry
